The Revolution Ended.

Peace Once More Reigns Supreme at Buenos Ayres.

THE GOVERNMENT VICTORIOUS.

Argentine Republic Rebels Suppressed and Their Arms Returned to the Arsenal-No Further Truuble Feared. One Hundred and Twenty Miners Killed by An Explost n-Other Foreign Vens.

LONDON, July 30. - It is officially annonnced that the British foreign office has received telegraphic advices from Bucnos Ayres that the revolution has eaded in the trumph of the govern-

The Argentine legation here received last night the following telegram from Buenos Ayres, signed by Minister of Finance Garcia:

"The government is completely victorions. The mutineers have capitulated and deposited their arms in the arsenal. All rebellious superior officers will be dismissed. The troops are returning to their quarters under the command of loyal officers. The minor officers par-ticipating in the revolt will be transferred to positions of less influence. The forces mobilized by the government are returning to the provinces. The political situation is thoroughly consolidated. The capital and the whole country are

The terms for a settlement of the troubles between the revolutionists and government, according to a dispatch published in The Times from Buenos Ayres, ave: That the civilians who have taken part in the insurrection will not be punished. All captains of the revo-Intionary forces and all officers above the grade of captain will be deprived of their rank. The artillery of the insurrectionists will be surrendered to-mor-

The situation, as above depicted, is based upon the statement of President Cehman. Other dispatches received from Buenos Ayres say the situation is nuclauged, and the prospects for a compromise are not encouraging. The concensus of opinion, according to these dispatches, is that the matter must be fought out.

The Temps publishes a dispatch from Buenos Ayres stating that the government and the leaders of the revolutionary movement have reached a settlement. President Cemann, the dispatch says, has resigned, and has been succeeded by Vice President Pelligrini as president. Quiet has been restored.

The Times special from Buenos Ayres says: At 8 a. m. the pickets of the Union Civica were being extended. The Provisional President Alem, stated that negotictions were in progress, and he expected them to be successful.

At 9 a. m. both sides received reinforcements. The government armed a number of guacho and cut-throats.

At noon the squadron began firing on the government house and firing was renewed in various parts of the city. President Celman and his adherents were obliged to abandon the govern-ment house. They took up their quart-ers in the street. The squadron had improved its aim so that every shot but one struck the government house. Alem and Lopiz claimed after—the—bombardident ceased that they had ordered the fire discontinued. It is believed, however, that the ammunition gave out and that this led to the final capitulation of the Union Civica, whose chief rehance had come to be in the navy. The ammunition in the hands of the insurgent land forces was also insufficient.

In the house of commons yesterday evening Sir James Fergusson, under foreign secretary, stated that the British minister at Buenos Ayres had cabled the home government that President Celman had left the capital and that negotiations with the insurgents were proceeding.

Harsh Treatment of dews.

The stiern of Cherry county has gone after the train rolders with a posse of mea. The robbers rode only a mile on the train and jumped off as it was moving. Chairman Landram's letter published away. They hope a light Democratic vote and the use of boodle will pull Tinsley through next Monday. The Democrats should not be caught napping. They ought to turn out and give Longmoor and all the rest of the nominees an old-time majority.

WESTERN Republicans seem to want some of Blaine's "free trade." The Iowa, Nebraska and Minnesota con-Minnesota crowd want "such reciprocity onsly. Thus: with the Republies of Southern and Central America as will open closer commercial relations between the Northern and Southern Americas."

THE Republican State League was in • session yesterday at Louisville, with Burton Vance presiding. It was given out that the principal object of their meeting was to consider the question of establishing a daily paper at that point and perfect their organization. But it's rather significant that this assembling of the Republican hosts will be followed soon by a State election. As a rule these political leagues are organized mainly for the purpose of raising hoodle for corrupting the voters, and if the fact was known the meeting at Louisville was called for that all competitors out of those markets that purpose. It behooves all Democrats to turn out and vote next Monday.

HEAR's one of the ways "Morg." runs things up in Lewis. The Portsmouth Press, a Republican paper, says:

"Last June a proposition to tax each \$100 of properfy in Vancehung 25 cents to raise au amount sufficient to give three months more schooling was submitted to the voters | tions-in which I cordidly join-on carrying | and carried overwhelmiugly. But the pian the shipping bill through the Senate. Do you discriminates in favor of the rich and against the poor. All of the taxpayers are not pay ing their proportion. They say that Morgan Thomas, whose possessions are fully twentyfive times greafer than a thousant dollars, doesn't pay, because he isn't required to. He simply appeared before the trustees and stated that he had no school children and was thereby released from paying a school tax of perhaps \$700. Is there any wonder that the farmers of Lewis County are protesting against the methods of gang rule?"

MASON COUNTY Republicans should hear In mind that the August election is the skirmish before the big Congressional fight in November. Get in line and get together. Our vote must be increased.—Republicau.

Democrats of Mason County, do you hear that? Read it well, and bear in mind that it is just as the Republican statesthe election next Monday will be the skirmish before the Congression battle in November. An old-time Democratic vic tory next Monday will enthuse the party for the contest in the fall, but a de feat will cast down and discourage "the boys in the trenches." A vote to be counted must be polled. Turn out, and help roll up a blg majority for the entire ticket, from top to bottom. Commence at the head and voie it straight-for Longmoor, Young, Whitaker, Phister, Pearce, Newell, Alexander, Blatterman, Kirk, Evereti and Cockrell.

AFTER speaking of the article in the North American Review on "Speaker Reed's Error," the Pittsburg Despatch (Rep.) says: "The parliamentary principles which he has asserted as Speaker are exactly those which are denied by Thos. B. Reed as a member of the House. The principles which he declared as a member he has overridden and ignored as Speaker. Mr. Reed's great characteristics as a leader is the energy with which he pursues his political purposes. But when the guest of the family of Jailer, Fitzgerthat energy reaches the development of ald for several weeks, left for her home asserting one set of fundamental and constitutional principles, when his partisan purposes are subserved thereby, and of asserting exactly the opposite principles when party exigencies call for the somersault, it affords an almost wanton declaration of his fealty to the political school which regards principles as of the slightest value beside the attainment of partisan purposes by fair means or the contrary."

BLAINE'S BREAK.

The Pinmed Knight Knocking the Props From Under the Protectionists.

Comments of the Courier-Journal on His Latest Letter Concerning "Reciprocity."

"Mr. Blaine's second letter to Mr. Frve is even more remarkable than his first," says the Conrier-Journal. "No clearer exposition of the doctrine and policy of free trade, in words so terse and strong, has ever emanated from any apostle of the school of Cobden and Bright. It puts in a nut-shell the theory, and proposes in a sentence the practical application of exchange and barter which are at once the foundation-stone and bell-tower of the Gospel of the Universal Brotherhood of Nations taught by the Fathers of Modern Economies. Mr. Blaine says:

"The vaine of the sugar we annually consume is enormous. " How like a leader out of the Courier-Journal of ten years ago? Verily, our own words! Yes, indeed, Mr. Blaine, and three times again! If you can give them outward, as well as inward, cargoes they will be much more profitable and permanent. You are in truth, Mr. Secretary, a very Daniet come to judgment! We salute you."

Republicans Putting Money Into the Campaign Against Longmoor For Appeliate Clerk.

LAWRENCEBURG, KY., July 26 -[Courier-Journal special.] Mr. John Smith, a citizen of this county, has received a letier from W. J. A BLACKSMITH SAVES THE LIFE OF A LITTLE GIRL.-Minnie Carney was perhaps as near leaving this world as anyone can be to recover. She was sick with cholera morbus, completely exhausted and unconscious. The physicians ln consultation decided the case was hopeless and beyond their control. Chas. J. Newcomb, a blacksmith, walked four miles through the darkness and storm, to get a remedy he had himself used, and which he firmly believed would cure her. That medicine was Chamberlain's Colic, Cholera and Diarrhea Remedy. He obtained part of a bottle, with which he hastily returned, and gave the little sufferer a half teaspoonful, which relieved her and consciousness gradually returned. The medicine was given in broken doses, and in a short time she was well. He is positive that it saved her life, and has others in that vicinity. A NARROW ESCAPE.

Mr. Gay Strode and Colonel Bierbower Meet With a Serious Accident While Out Driving.

Mr. L. G. Strode and Colonel F. H. Bis rbower had a very narrow escape late Let All Pull Together and an Old visterday afternoon at the first toll-gate on the laxington pike.

Mr. Strode is a representative of the Mutual Life Insurance Company of New York and wanted to see some friend in the Washington neighborhood in regard to a policy. Procuring a horse and buggy at Mesers. Wells & Biggar's stable he started to drive out to his friend's, Col onel Bierbower was with him.

When they arrived at the first toll-gate some country wagon, loaded with coal and farm implements, was on the point of passing through on one side of the road and there was a phaeton on the other Fleming, George Means, E. W. Fitzgerald, side. As the wagon passed through, Pat Fox, James Creighbanm, James A. some of the farm machinery caught on Wallace, Frank O'Donnall, Michael the pole. A Disgrace to the Church.

A special from Daovitle says: "At the fligh Bridge componeeting Santas the crowd was enormous, at least 5,000 pe ple being present. Two excursion trains came from the North and the some num ber from the South, and hundreds of peaple came in private vehicles, on horseback and on foot. On the camp grounds proper there was a very respectable crowd, the religious services being conducted by Rev. Dr. Boting, though few availed themselves of the opportunity to worship God, which appeared to be the least thought of. In fact, the main object of the whole affair seemed to be to make money, as on every side were lemonade stands, lunch-rooms, etc. I'h hand-satchel, with just room enough for a quart bottle, was also prominent.

"On the outside of the inclosure the seen together on an occasion of this kind made things lively. Whisky bottles, pistols, shell games, and numerous gambling devices were openly displayed, and the behavior of prostitutes from Cincinnati and Lexington was most diagraceful. Several hoys from twelve to fifteen years of age were noticed that were staggering drnnk.

"One sanctimonious-looking genius had under his arm what appeared to be a handsome Bible with a gold clasp, but upon unclasping it, the "Bible" was found to contain nothing less than a pint of old hourbon. That such an institution as the High Bridge camp meeting is run under the guise of religion is a disgrace, and it is no wonder that few of the better classes go there of late years,"

A starved cow will give starved milk;

A "skinched" shoe will give "skinched" wear,

You can't put a cow on starvation diet and get good, rich cream out of her. You remember that the man who had discovered the way to keep a horse without feeding had a dead horse just about the time he had perfected his discovery.

You can't get out of a thing what isn't put into it.

Put good feed into a cow and you get good milk out of her-rich milk that will make cream.

Put good material into a shoe and you get good wear out of it. But a "skinched" shoe is as sure to give "skinched" wear as a starved cow is to give starved milk. YOU don't want "skinched" shoes.

Operation of the Bureau for the Year Just Ended.

A PRELIMINARY REPORT SENT IN

The Collections Show a Large Increase Over the Previous Year-Proceeding of Both Branches of Co gress-Various Other Washington News.

WASHINGTON, July 30.-Hon. John W. Mason, commissioner of internal revenue, has submitted his preliminary report to the secretary of the treasury on the operations of his bureau for the fiscal year ended June 30, 1890. It shows that the total cohections from all sources during the year were \$142,594,-697, as against \$130,891,434 for 1889, or an increase of \$11,700,262. The cost of collecting this amount aggregated \$4,-100,000, exclusive of the amount expended for printing internal revenue stamps, as against \$4,185,728 for the previous year, or a decrease of \$85,000.

The percentage of the cost of collection is a fraction less than 2.9 per cent. The cost during the previous year was 3.2 per cent. Owing to the increased quantity of spirits produced, resulting in an increase of taxes collected of more than \$7,000,000, the salaries of storckeeper and the fees of gaugers, were largely in excess of the amount estimated when the appropriation was made. To meet the deficiency an additional appropriation of \$115,000 has been a-ked.

The receipts from sprits during the year amounted to \$81,687,355 as against \$74,312,205 during 18-9, or an increase of \$5,345,168. The receipts on tobacco were \$33,958,991 against \$31,886,860. showing an increase over the last fiscal year of \$2,092,130; from fermented liquors, \$26,008,534 against \$23,723,835, or an increase of \$2,284,699. The receipts of oleomargarine show a decrease of \$107,956; from banks and bankers the receipts for 1890 aggregated \$142,594,696 against \$130,834,134 in 1889, or an increase of \$11,700,262.

A statement is appended showing the aggregate collections by the collectors of the several collection districts. largest sum collected in any district was by the Fifth Illinois district aggregating \$22,355,689; the First district of Ohio is second with \$10,953,675; First Illinois third, \$10,371,324; followed by the Fifth Kentucky. \$8,902,796; First Missouri, \$4,586,397; Twenty-third Pennsylvania, \$3,873,635; Third New York, \$3,829,985; Sixth Kentucky, \$3,350,403, and First Pennsylvania, \$3,336,039.

The statement also gives a table of the aggregate collections in states, which places Illinois in the lead, with \$34,876,691; Kentacky second, with \$17,059,042; New York third, with \$16,-294,321; Ohio fourth, with \$13,430,972; Pennsylvania, \$9,732,217; Missouri, \$8,-062,294; Indiana, \$6,250,981; New Jersey, \$4,206,522; Virginia, \$3,516,195, and Wisconsin, \$3, 42.653.
